EXPERIENCE

Freelance Web Developer
SEP 2015 - PRESENT

Designed and developed responsive websites and web apps; providing solution by taking time to understand the needs of clients. Often worked with startups and people looking to take their already existing small/medium business online. Some projects include:

+ fwdseo.com - developed an inventory and invoice management system using the AMP stack with JavaScript.

+ whitehatmkt.ca - corporate website for a startup developed using Bootstrap with some PHP for contact form and Google Maps API.

+ ddslab.com - added custom features in a WordPress-powered website for a dental laboratory company.

Web Developer, Custard Apple Outsourcing
JAN - AUG 2015

+ Worked in a team of 6 to build an Android app commissioned for a local festival; implementing chat, Google Maps and live streaming integration.

+ Developed and maintained WordPress-powered websites.

+ Designed and developed responsive websites, landing pages and marketing materials.

Intern, Mynd Consulting
JUN - OCT 2014

+ Involved in QA/UX role for mobile apps(OFW Watch, ClanBuzz); collaborating with the core team in reporting issues and providing constructive feedback.

+ Contributed in the development of an e-commerce website using Laravel as an MVC framework.

+ Optimized client websites' search engine ranking; using keyword and content optimization, link building campaign and other SEO tools and techniques.

EVENTS

3rd Startup Weekend Davao
AUG 2-3 2014

Awarded 2nd place for InstaRent; a web and mobile e-commerce platform that allows users to search and match rental services and equipments.
